John L. The teamsters have been on a strike since last Saturday.

Mr. Deering will also make an effort to strengthen the local union while he is in the city and to this end will address a mass meeting of teamsters at the union hall, 127½ West Grand avenue tonight.

Henry May, business manager of the local teamsters' union said today that the strike situation was practically unchanged, but that he felt sure that the operators would do what was right and that there would be a settlement of the strike at an early date.

The substantial men of coming years will be those who formed the saving habit in their youth. Start with a Thrift Stamp today.

**Be Careful in Using Soap on Your Hair**

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain unsulfured coconut oil, as it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust and dandruff.
